I would suggest Jeff since he has more history on the project and has a technical background. I have copied Jeff on my reply.

If Jeff is unavailable, I suggest Lynn.

I need to keep Brad focused on project work.

Mary,

Here is a good chance to participate in a chamber energy and environment committee meeting. I recommend we may have someone with technical knowledge about the site and can provide both an overview and answer specific technical questions.

Subject: Invitation to speak at the St. Louis Regional Chamber's Energy and Environment Committee

Ben,

I'd like to invite you to be a panelist at the St. Louis Regional Chamber's next Energy and Environment committee meeting on **Thursday, October 29th from 7:30 – 9:00 a.m.** in the Chamber's Regional Collaboration Center. We will gather at 7:30 a.m. and the program will begin at 7:45 a.m. Our topic for the meeting is the West Lake Landfill and the goal is to provide an understanding of the context, the history, and the current situation at the landfill.

The meeting is closed press and only open to Chamber members and I expect 15 to 30 attendees at the meeting. The format of the meeting is conversational in style and we encourage questions and discussion between the committee and the panel. Each panelist would get 10 or 12 minutes to present, leaving time for Q&A and committee discussion. We have Bridgeton Mayor Terry Briggs and Russ Knocke of Republic Services confirmed as panelists and have extended invitations to the St. Louis County Health Department and Missouri DNR.

Please let me know if you would like to serve on the panel and/or if you have any questions. The best ways to reach me this week are on my cell at (314) 348-1322 or via email.
